

Keysight Technologies 34194A(5061-8769)

The Keysight 34194A (5061-8769) dual lock link kit is recommended for side-by-side combinations and includes links for instruments of different depths. This kit can be used with the 34191A 2U Dual Flange Kit to mount two Keysight System II (half-width, 2U height — 88.1 mm) instruments side-by-side.

The Keysight 34194A dual lock link kit is compatible with the Keysight 34410A, 34411A, 34401A and 34420A DMMs, the Keysight 34970A/34972A Data Acquisition/Switch Units, the Keysight 531xxA and 53200 Series frequency counters, the Keysight 33120A, 33220/250A and 33521A/33522A function generators, most E3600 power supplies and other 2-slot, half rack sized Keysight products.
