

TSI / Airflow Telescopic pitot tube

Optional accessories for the TSI 9565 Multifunction

The pitot static tube is a universally accepted means of establishing air velocity in ducts not fitted with permanent flow monitoring devices. When used with a high quality manometer the accuracy and dependability of results is far greater than with any non-fundamental method.

AFL7017501 pitot tube 2.3mm x 305 mm

AFL7048101 pitot tube 4mm x 305mm

AFL7013501 pitot tube 8mm x 480mm

AFL7013502 pitot tube 8mm x 800mm

AFL7013503 pitot tube 8mm x 1000mm

AFL7253801 pitot tube 9,5mm x 1220mm

AFL7253802 pitot tube 9,5mm x 1520 mm

AFL7048104 pitot tube 4mm x 305mm with screw

AFL7013506 pitot tube 8mm x 480mm with screw

AFL7013507 pitot tube 8mm x 800mm with screw

AFL71805301 Telescope pitot tube, L=980mm, Tmax=100°C
